

G - Flow Series

**Submersible Pumpset
50Hz**

SUBMERSIBLE PUMPSET

C.R.I. Submersible Pumps are the products of the expertise gained from over five decades of experience, endurance and workmanship. These products are engineered to perfection with utmost care and stringent quality control at all stages to ensure a trouble free service.

C.R.I. 2" & 2.5" *G - Flow* Series Submersible pumps are built with thermoplastic impeller, diffusers and inbuilt check valve. All vital components of these pumps are made of corrosive resistance thermoplastic and the shaft is of S.S - 304. Pumps are multi stage centrifugal type. The optimal design of impellers and diffuser enables the best possible hydraulic efficiency.

The pump is firmly coupled to a submersible electric motor which operates submerged beneath the surface of water. The dynamically balanced rotors and equipped with quality ball bearing maintain uniform clearance thereby giving better efficiency and increase the life cycle.

These *G - Flow* Submersible Pumpsets are supplied as a complete package i.e. Pump coupled to motor, with control box and 30 meter submersible cable (optional) in a single package.

Applications : • Residential • Irrigation • Civil Water Supply • Fountains • Industrial & Rural Water supply
• Fire Fighting • Pressure Boosting Units • Gardens • Sprinkler Systems.

Specifications

NOMINAL DIA.	2"	2.5"
Power range	0.18W to 0.37kW	0.18kW to 0.55kW
Speed	2900 rpm	2900 rpm
Version	Single phase 230V, 50Hz, A.C Supply	Single phase 230V, 50Hz, A.C Supply
Class of insulation	"F"	"F"
Degree of protection	IP 68	IP 68
Type of duty	S1 (Continuous)	S1 (Continuous)
Max. Liquid temp.	33°C	33°C
Method of starting	Single phase permanent split capacitor (PSC)	Single phase permanent split capacitor (PSC)
Outlet size	1/2", 3/4" BSP	1" BSP

Materials of Construction

PART NAME	MATERIAL
Pump Outer Shell	S.S - 304
Check valve housing	S.S - 304

SUBMERSIBLE PUMPSET

4" Submersible Pumpset

C.R.I. 4" *G - Flow* Series submersible pumps are built with thermoplastic impellers, diffusers and inbuilt check valve. All vital components of these pumps are made of corrosive resistance thermoplastic and the shaft is of SS 304/431. Pumps are multi stage centrifugal type. The optimal design of impellers and diffusers enables the best possible hydraulic efficiency. Built in check valve prevents back flow and reduces the risk of water hammering.

The pump is firmly coupled to a submersible oil filled motor which operates submerged beneath the surface of water. Dynamically balanced rotors and quality ball bearings maintain uniform clearance thereby giving better efficiency and increase the life cycle. All mounting dimensions of pumps & motors are in accordance with NEMA standard.

These *G - Flow* submersible pumpsets are supplied as a complete package i.e. pump coupled to motor, with control box, 30m submersible cables and Safety rope (optional) in a single packing.

Features : • More Longevity & Hygiene • High Operating efficiency • Lesser power consumption • Floating impeller design prevents sand blockages • Easy to dismantle & Repair • Rigid construction • Highly durable • Can handle upthrust load • NEMA Mounting Standard • Extremely hardwearing water lubricated bearings.

Applications : • Residential • Irrigation • Civil Water Supply • Fountains • Industrial & Rural Water supply • Fire Fighting • Pressure Boosting Units • Gardens • Sprinkler Systems.

Specifications

NOMINAL DIA.	4" (100mm)
Power range	0.37kW to 2.2kW
Speed	2900 rpm
Version	Single phase 230V, 50Hz, A.C Supply Three phase 380-415V, 50Hz (Optional)
Class of insulation	"F"
Degree of protection	IP 68
Type of duty	S1 (Continuous)
Min. Cooling flow	0.15m/s
Max. Liquid temp.	33°C
Max. Immersion depth	150m
Starts per hour	20 times
Method of starting	Single phase permanent split capacitor (PSC) Three phase direct on-line (DOL)
Pump outlet size	1¼", 1½" & 2"
Cable lead out	Permanently connected and sealed 3 core rubber flat cable

Notes :

W I N N I N G W A Y S

When you have a good thing going it is quite in the fitting of things that recognitions come our way. Several prestigious awards, which decorate our shelf, say it all. These rewards not only acknowledge our position as a leader in the water pump industry but also serve as reminders about what the customer expects from a winner. And we, as ever, have our ears perfectly tuned to customer expectations.
